Summary

Passionate Front-End Developer with experience in building responsive, user-friendly web applications using modern web technologies. Skilled in developing clean, maintainable, and high-quality code, with a strong focus on performance, usability, and best practices. Possesses strong communication and problem-solving skills, with the ability to collaborate effectively with cross-functional teams. Committed to continuous learning and keeping up with the latest technologies and trends in web development.

Education

- **Al-Ahram International Academy** Department of Information Systems
- **Grade:** Very Good

Studied information systems, database design, systems analysis, and software development, building a solid academic foundation in information technology.

- **COURSES & PROFESSIONAL TRAINING**

Route Academy — Front-End Development

Completed specialized training in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Sass, React.js, Next.js, TypeScript, and Redux.

Developed skills in building responsive, user-friendly, and accessible web interfaces, applying component-based architecture, managing application state with Redux, and integrating APIs. Gained experience using Git and GitHub for version control and collaborative development, with a focus on writing clean, reusable, and maintainable code and following modern development best practices.

Skills

- **Front-End Technologies** — HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, jQuery, React.js, Next.js, Redux, TypeScript, Sass | **Tools & Platforms:** Git, GitHub, Figma

Professional Experience

Junior Frontend Engineer 2022/07 – 2023/09 | Al Mansoura

Romoz

- Contributed to the development of a poetry platform featuring articles and books.
- Developed and styled interactive slider and portfolio sections.
- Implemented login and registration page interfaces, focusing on usability and visual consistency.
- Translated design requirements into functional web interfaces.

Junior Frontend Engineer 2024/01 – 2025/05 | Giza

3Hand

- Developed a complete website for a contracting company, implementing its pages and user interface.
- Built key sections of a dental website, including the Home, About, and Footer sections.
- Contributed to the development of a dental clinic management system.
- Focused on responsive layouts, consistent styling, and user-friendly interfaces.

Projects

FreshCart
Developed a React-based e-commerce application with dynamic product listings, shopping cart, and checkout functionality. Used React Router for navigation and React Hooks for state management, focusing on reusable components and responsive design.

YummyWebsite — Meals Web Application
Developed a responsive meals web application using HTML, CSS, and jQuery, integrating an external API with search and filtering functionality to display meal information dynamically.

Todo List — Task Management App
Developed a responsive task management app using React and Tailwind CSS, featuring task creation, completion, and deletion with interactive state management.

BookMark — CRUD Web Application
Developed a bookmark management web app using HTML, CSS, and JavaScript, featuring CRUD functionality to add, view, update, and delete bookmarks through a user-friendly interface.

CURD — Store Management System
Developed a store management web app using HTML, CSS, and JavaScript, featuring CRUD functionality to add, view, update, and delete product data through an interactive interface.

Weather Forecast — Weather Application
Developed a weather forecast website using HTML, CSS, and JavaScript, integrating a weather API to display real-time weather data and a dynamic three-day forecast for selected cities.

Calculator — Web Application
Developed a responsive calculator using HTML, CSS, and JavaScript, implementing basic arithmetic operations through an interactive, user-friendly interface.

Simple Login System — Login Interface
Developed a login interface using HTML, CSS, and JavaScript, featuring client-side form validation and interactive behavior to ensure a clean, user-friendly experience.

Mealify — Restaurant Landing Page
Developed a restaurant landing page using HTML and CSS, featuring an attractive, responsive layout to showcase meals and restaurant information with clean styling and user-friendly navigation.

Design Sample Website — Web Design Project
Developed a website template using HTML and CSS, featuring animated elements, modern styling, and clean layouts to enhance visual appeal and user experience.

Modabber — Personal Finance Dashboard
Developed a personal finance dashboard to track account balances, income, expenses, transactions, monthly bills, and budgets through a user-friendly interface.

Soft Skills

- Self-Learning & Continuous Improvement
- Self-Motivation
- Communication Skills
- Presentation Skills
- Teamwork & Collaboration
- Time Management
- Problem-Solving
- Adaptability to New Technologies and Tools
